GRIMSBY SPORTS GET CHANCE TO SEE LACROSSE GAME HERE

Thanks to the kindness of Mr. Russell T. Kelley of Hamilton, local sports are going to have an opportunity of seeing a real honest to goodness exhibition of Canada's National Game, Lacrosse. As soon as Mr. Kelley learned that the Peach Kings were going to stage a Community Fair, volunteered to arrange a Lacrosse game as an added attraction.

So on Thursday night, the 20, at six o'clock Mr. Kelley's Tigers will line up against the Six Nations' Team from the Reserve. The Redskins have a real snappy team and will be led by Chief Dave Thomas who is a regular on the Tigers line up. Local interest is added to the attraction because Nick Burnside, one of the most popular and useful boys who ever donned a Peach King uniform, is the star defensive man of the Tiger team. A real high class exhibition of lacrosse is promised and a bumper crowd should be on hand to see the contest.

'T WAS A "HEART CASE" CAUSED BOB MOXLEY TO SETTLE HERE

(Sanitary Engineer, Plumber and Steamfitter, Toronto, July 15)

Romance is frequently found in strange places and it has a habit of changing the course of many lives. Not that Grimsby, Ont., is a strange place or that the romance concerned might have caused Robert (Bob) Moxley to have strayed from the honored path of the plumbing industry, but it is interesting to calculate just what some of us might have been doing today had the romantic fates dealt us a different kind of a hand.

But it was a "heart case" which caused Bob Moxley to settle in Grimsby, Ont., and after meeting the lady in the case, we can only extend compliments to Bob on his splendid judgment.

It was eighteen years ago that all this took place and Bob has been an honored member of the business fraternity of Grimsby and district since then. He went originally to that town while employed by the Rogers Plumbing Co., of Hamilton.

He liked the town and one of its fair sex so much that he decided to settle down, and he has stayed settled except for four years from 1914 to 1918 when he was giving his every support to as noble a calling as the business he chose—the army. He spent a year in Beamsville but returned again to Grimsby to practise the trade which he learned well and truly while with the old established firm of McKelvey & Birch of Kingston, Ontario.

Bob is very public spirited, as any business man should be who expects to make progress especially in a smaller community where he can be a "big toad in a small puddle." He is a member of the town council and of the fire and fire committee. He runs a one man business, believing that his own connection and personal attention to all business dealings with customers is the element which keeps things running smoothly and enables him to make a fair profit on work. He does considerable school work, keeps his accounts in a very liquid condition, has practically no bad debts whatever, and secures a great deal of his business on the basis of recommendation of other customers. He does considerable school work and has a large building and renewal trade, and this keeps him so busy that he has no time to go out after new business. Considerable work is also done by him out in the country.

In religion Bob is a Presbyterian but broad minded enough to subscribe to the ideals of the Unionist movement. In politics he is a sound Tory and therefore believes that under a changed government business would be a lot better. Just how much better he could stand it we would hate to guess because he is working night and day as it is, and would, we think, be taking a long chance on disrupting the course of married bliss which has run smoothly for 12 years should he take on much more work.

LIGHT CONTRACT IS DISCUSSED

A special session of the town council was held in the office of the clerk, on Wednesday evening, August 5, 1925, for the purpose of meeting representatives of the Dominion Power & Transmission Co., Limited, with regard to the making of a new power and light contract. Aldermen Burns and Moxley were absent.

Loels W. Pratt and W. J. Angus were present on behalf of the company. Considerable, at times somewhat hot, discussion took place over the apparent neglect of the town's application for estimates and draft contract, by the Hydro Electric Power Commission, and the eventual saving to the power consumers of the town, the advent of Hydro power would be.

Asked as to the proposition they were ready to submit, Pratt and Angus stated it would be substantially the same as that which is now in event, saving regard to changed local conditions, changes required by the town in their street lighting, etc.

It was moved by Ald. Fonger, seconded by Ald. Durham, that the Dominion Power & Transmission Company, submit to this council, a new synopsis of agreement insofar as power and lighting is concerned, the synopsis to be in keeping with changed conditions of the past few years. When submitted the proposition will receive due consideration of the council, at once, and that a copy of this motion be sent to the Hydro Electric Power Commission (for their information and action, if any).

Ald. St. John thought the Hydro

should be given another chance to submit their estimates and contract, Reeve Mennell taking the stand that they had had plenty of opportunity to do so, and had not availed themselves of it. Mayor Livingston endeavored to throw some light on this phase of the question, with more or less success, as to the acceptance of its explanation.

It was finally decided, upon motion of Reeve Mennell-Ald. Eld, that the clerk notify the Hydro Commission that if they wish to submit a plan for a municipal lighting and power plant, they must do so at once—at once meaning for consideration at the next regular meeting of the council, as Pratt and Angus stated they would have their draft agreement ready for consideration by that date.

J. W. Kohnke appeared and requested relief from the overflow of water from the road into his property at the Forty bridge, stating damage caused by each heavy rain was considerable—and brought about by wrongful construction of catch-basin at that point, in the building of the new pavement. The council granted his request and decided to meet at the point in question on Wednesday night, August 12, (tonight) prior to convening for their regular meeting.

Repair to the bridge over the Forty creek, on Elizabeth street, were under discussion and on motion of Ald. Fonger and St. John, it was decided that the superintendent be instructed to proceed at once with repairs to Elizabeth street bridge, these repairs to consist of at least a new two-inch sound, white or Norway pine covering,

NICK BURNSIDE.

goal getter extraordinary, and generally man of the champion Peaches, star defence man of the Hamilton Tiger lacrosse team. Nick does this stuff with the Tigers against the Six Nations Indian team at school grounds Thursday Night, 20th, at 6 o'clock. This will be Grimsby's first opportunity to witness Canada's national game, and a bumper crowd is expected.

NOW GIRLS YOU MUST COVER UP

North Grimsby Council To Pass Law Regulating Clothing of Bathers

North Grimsby township council in regular session on Saturday with Hamilton Planning, Reeve W. M. Stewart, deputy reeve; G. W. Crittenden, A. Oakley and W. H. VanDuser, councillors present.

Three Reeve, Oakley and VanDuser were appointed a Committee to consider with Provincial Highway Engineers' Fellowship with regard to flooding, particularly as a point about a half mile east of Park road.

At the request of a petitioned Mr. G. B. McConachie, solicitor for the township, road side booth the committee appointed at last meeting reported: "That Mr. Nickerson is at present doing business under a license from North Grimsby council. We would recommend that this license be withdrawn, and no further licenses be issued to said Mr. Nickerson until adequate arrangements are made to take care of traffic from the highway." The report was adopted.

Another motion was passed to the effect that "the clerk write Mr. Nickerson that in accordance with the township by-law he be requested to remove his booth back far enough to make ample parking space so as not to obstruct highway traffic, before he be granted a permit."

G. B. McConachie, solicitor for the township, will prepare a bylaw under section 51 of the Highways Act to regulate traffic in Grimsby Beach and to place the maximum speed at twelve miles per hour.

The solicitor will also be instructed to prepare a bylaw to regulate clothing of bathers in the township.

The reeve and deputy-reeve were appointed to investigate the condition of the Cemetery on The Thirty Mountain road.

A deputation from Grimsby Beach asked for reduction in water rates by the council turned a deaf ear as the system is not self-supporting as yet.

The recent heavy rains have caused considerable washout at the foot of Baker road and Road Superintendent, Russ, Deputy Reeve Stewart and Councilor Crittenden as a committee with power to act will confer with the road.

Road costs from July 18 to August 5, 1925, were ordered paid as other accounts amounting to \$348.00.

The full width of the bridge and footway to the present three twelve sleepers, where necessary, new to be twelve, sound, white or Norway pine sleepers.

Echoes of the construction of Mount street pavement were in request by Mrs. J. S. Morris, some measure of relief at her expense in the shape of fence or curb, to prevent heavy flow of water, down coming onto her lawn and her flower beds as well as wash-muck and gravel off the pavement of the lawn.

The matter will be taken up by J. M. Livingston, on behalf of the owners on Maple street, against a request that some information be gained, or action taken with regard to the repair of road.

The clerk was instructed by the motion, to follow up previous letters to the Dominion Power & Transmission Co., Ltd., Head Office, and to call attention to the

SPRAYING AS IMPROVEMENT IN THE CARRYING OF FRUIT

W. A. Ross, of Dominion Entomological Department at Vineland Station, Sends Out Remedies—E. D. Smith & Sons Speak of Benefits To Be Derived By Growers By Following Advice:

The Independent.—The enclosed bulletin is a copy of one that we have received from Mr. Ross of the Vineland Experimental Farm, Vineland Station, re spraying, and as we believe it contains most useful information which is highly desirable to be carried out for the good of the fruit industry, we are taking the liberty of forwarding you a copy.

In the past on different occasions there have been very heavy losses taken by reason of fruit decaying before arrival at destination. This was especially so in our own experience with peaches. If we could feel assured that peaches would arrive safely in the Western market when shipped by freight, it would keep open a fine market, but owing to past experience and heavy losses, one is quite diffident in shipping by freight, or even by express, to far distant points. The fear of distribution, and its curtailing of our markets because of this, and the loss incurred on peaches because of rot, all has a direct effect on the price to the grower.

We, therefore, feel that if this spraying could be done by everybody and make it much safer to ship our peaches to more distant markets, it would have a direct benefit to all fruit growers here. Especially this year, when there is an embargo against American peaches from the United States east of the Mississippi coming into this country, we feel that every effort should be made to land our peaches at their destination in good shape, to satisfy the Canadian public. We do not want the public to say that they could not get satisfactory Canadian peaches.

We, therefore, trust that you will take this into your serious consideration, and if you hitherto have not sprayed in this manner, consider that it is the best thing for your own pocket book, and do so.

Yours truly,
W. A. ROSS,
Dominion Entomological Laboratory,
August 1, 1925.

HAVE YOU SEEN CANADA?

(Ottawa Citizen.)

Canada contains nearly 3,730,000 square miles, of which over 3,600,000 square miles is land. How much of this do you have seen? This question is asked by the natural resources intelligence service of the department of the interior. Canada has all the attractions that any one could wish to see. There are quiet spots where those wanting a real rest may find their heart's desire; there are rivers, lakes and the sea where he who delights to hear the whirr of the reel may secure the finest of game fish; throughout large portions of the country the canoe routes beckon to those who would get away from the conditions of present-day civilization, and camping sites await those who would live in the open. Many thousands of miles of the best of highways offer to the motorist opportunity to tour Canada as never before. Untold millions of money have been poured out that road travel shall be comfortable and pleasurable, and over these good roads each year thousands of visitors view the country and recognize its beauties and appreciate its natural resources. When outsiders can see so many things to interest them in Canada, why should Canadians not pay more attention to their own country's charms and see and admire them from the outside to do their motoring and spend their money? See Canada, know your own country and be proud and thankful that you have been blessed with such a wonderful heritage.

MOVIE PICTURES IN MANY COLORS

Scenes From Some Coming Film Shows—Natural Hues of Castles and Scenes—Something New.

That there are some great pictures ahead for patrons of Moore's theatre was proven last night when Jack Nelson, Toronto distributor of Metro-Goldwyn-Mayer pictures, put on about ten reels of scenes from a new film of the M-G-M. latest films.

Some of the scenes shown were from "The Mystic", "The Circle", "Slave of Fashion", "Pretty Ladies", "Merry Widow", "Time the Comedian" and "Patsy". In the latter picture our own Wilfrid Lucas appears, which will make the picture of added interest to Grimsby people.

One of the almost amazing features of these films is the color effect. No dull drab grey, but a kaleidoscope of color rich, pleasing and true to the scene itself. The coloring of these pictures is in itself well worth seeing even by those who do not make a practice of attending moving picture shows.

The first reels shown were of the Metro-Goldwyn-Mayer studio at Culver City, California, showing the

IMPROVING THE CARRYING AND KEEPING QUALITIES OF STONE FRUITS BY SPRAYING.

All fruit growers are aware that spraying protects the foliage and fruit of orchard trees from the ravages of insect and fungus pests, but it may be news to some to learn that late applications of spray material also have a very marked effect in improving the carrying and keeping qualities of peaches, plums and cherries. In a spraying test, conducted by the Entomological Branch in 1923, boxes of unsprayed peaches and sprayed peaches were kept under observation at ordinary house temperatures for some time, and it was noted that at the time practically all the former were in a rotten condition, fully 80 p.c. of the latter were still sound and fresh in appearance.

In connection with cherries, it is interesting to learn that some good housewives like to see spots on the cherries they purchase, because they have learned to associate spray stains with freedom from rot and with good keeping qualities.

In view of the above, we would advise growers, who are anxious to have their fruit reach the consumer in first-class condition, to apply the following sprays, primarily with the object of prolonging the life of the fruit in the basket.

PEACHES—Spray with wettable sulphur, 1 1/2 lbs. to 40 gallons of water, about four weeks before picking, or apply two applications of sulphur dust (1) four weeks before picking, and (2) seven to ten days before picking.

CHERRIES AND EUROPEAN PLUMS—In addition to the regular applications mentioned in the Ontario Spray Calendar, spray the trees with lime sulphur 1-50 about one week before picking, or dust with sulphur dust.

JAPANESE PLUMS—Dust with sulphur about one week before picking. (It seems probable that wettable sulphur, 1 1/2 lbs. to 40 gallons of water, could be used two weeks before picking without causing too much staining. Lime sulphur is liable to stain the leaves.)

WILLIAM A. ROSS,

Dominion Entomological Laboratory

LEAVE US ALONE

(St. Catharines Standard.)

Dr. Guy Manning of San Francisco, considered somewhat of an authority on several matters, says people are lazy. He starts in with the housewife and claims that she has so many labor-saving devices that she doesn't know the meaning of hard work.

Turning from her, he goes after the men, declaring that they are downright lazy. They will wait five minutes for an elevator rather than walk up a couple of flights of stairs; they will take a street car rather than walk a few blocks, and so on.

And after all, what business is it of Dr. Guy Manning or any one else if people have these habits? If a woman keeping house finds it easier to have an electric washer in operation than to scrub the knuckles off her hands on a washboard, who is going to say that she's wrong? If some other devices make work easier and enable her to get through an hour or so sooner, who's going to sit in judgment and say it shouldn't be done?

As for a man and an elevator, what's the elevator there for? Has some person to go tagging around after him all day and tell him when to walk and when to ride?

Some person always seems to be ready to take on the task of scolding the rest of us for what we do or don't do, and the way we do or don't do it. Why can't these critics and regulators leave us alone?

WRITE TO YOUR FRIENDS IN U. S.

Motor League Plans To Bring More Tourists To Ontario from Over the Border

The Ontario Motor League is appealing to all motorists in the province to write to their friends and relatives in the United States telling them that Ontario now has a Highway System comparable with the best in the U. S. A.; and scenic, climatic, fishing, hunting and other vocations, charms for motor tourists without parallel on the American continent.

"Where in a like space and within such easy touring distance of the majority of the motorists of the United States are packed so many and so stirring playgrounds and so many scenic attractions, banks of fish and game and points of historic and other interest accessible to motorists over good roads?" asks an official of the Touring Department of the O.M.L.

"To get a good view of Niagara Falls either in its natural night and majesty by day or in its fantastic, spectacular, garb by night, provided by the battery of electric searchlights totalling a million, three hundred candle power, the twin cataracts may be viewed from the Canadian side, that is, from Ontario." "Here," he said, picking up a letter from his desk, "is a letter from a Philadelphia motorist 'for whom we prepared a copy.' He says, after expressing appreciation to him, 'Ontario is an ideal land to tour in. I'm coming back, I hope, not once, but many times. We have no drive on this side of the Line comparable with that from Toronto to the Falls and Port Erie.'"

"If every Ontario motorist would write to friends and relatives in the United States about Muskoka, the Thirty Thousand Islands, Georgian Bay, the Waterway, Algonquin National Park, Timiskaming, the great mining country, the Blue Water Highway, the Great Northern Highway, the Ottawa Valley, the Thousand Islands, the Niagara Peninsula and the beauty of Old Ontario, it would do more to augment the annual incursion of motor tourists than a myriad copies of maps, booklets and vouchers."

"Motor tourist traffic," he said, "has been ranked above our great mineral output as a source of revenue from natural resources."

MAINLY FOR WOMEN

Will Celebrate 70th Anniversary

Stirling, Ont., Aug. 10.—If Joshua Anderson and his wife, who reside on Anderson Island, a small tract of land cut off from the mainland by the Trent River and one of its branches, live until October 29 next they will celebrate the 70th anniversary of their marriage. The husband is 99 and Mrs. Anderson 10 years his junior. Mr. Anderson was born in Northumberland County, not more than a mile from his present home, on January 21, 1826.

When Mr. Anderson was 11 years old his parents moved to Anderson Island, which was named for the family, taking possession of the farm on which the son and his wife still live. That was in 1837, the year of the breaking out of the Mackenzie Rebellion.

One of the older boys in the family belonged to the militia, and his company was called to Belleville. Joshua and another brother visited the soldier at the barracks in Belleville, walking the distance, 22 miles, through the woods, over a rough trail. They slept one night in the barracks with the soldiers, all of whom were anxious to get to the fighting line, but the trouble was settled without their aid, the Peterboro (Ont.) Examiner comments.

Mrs. Anderson, whose maiden name was Mary Parcells, was born near the home of her future husband on April 3, 1836, on Easter Sunday. The couple were married on October 29, 1855, by Rev. William Black, pastor in charge of what was then a mission station of the Methodist denomination at Stirling.

The young couple took up the hard life of the pioneers. They had to literally hoe their home out of the wilderness, but they overcame all difficulties and obstacles and are now spending their declining years in peace and comfort. They raised a family of 10 children, seven of whom are still living.

Into a life so long, no matter how secluded, tragedy was sure to come. The first real sorrow that cast its shadow over the home was the drowning of two of the children. Angelina and Richard, aged 10 and 11 years, who broke through the ice on the river on their way from school. The aged eyes of one mother fill with tears as she tells of the recovery of the bodies, clasping each other's hands. Another son, Wilson, was killed by a horse some years ago.

Even in those early days there was a stage running from Stirling to Belleville but Mr. Anderson never used this method of transportation when he had business in the lakeside town, but walked there and back. Once he was summoned for jury duty in Belleville and he made his way on foot, reaching his destination ahead of the stage. A case on which he was called was finished at 10 o'clock at night and he made his way home on foot, arriving as day was breaking, and taking up his duties as he would had he been reading all night.

Both Mr. and Mrs. Anderson are remarkably bright and vigorous for their

years. Their sight is good and all their faculties as keen as ever, save for a slight deafness on the part of the husband. They are free from the pains and aches which usually afflict the aged. The husband has always used tobacco in moderation, but never drank any liquor to speak of, and only once—about 10 years ago—has he required medical attention. An ambition for public office never beset him. In politics he was always a Conservative. He was raised an Anglican, but nearly all his life attended the Methodist church.

In the case of both Mr. and Mrs. Anderson, longevity appears to be a matter of heredity. The former's mother died at the age of 95, and in the Stirling cemetery there is not a monument recording the age of anyone older. Mrs. Anderson's grandfather, the late John Parcells, attained the age of 100 years and 11 months. She tells, with evident family pride, that her grandfather a short time before his death walked from what is now the town of Trenton to Toronto, 100 miles, making the return trip in less than a week. Mr. Parcells fought in various engagements in the War of 1812.

The living children of Mr. and Mrs. Anderson are Mrs. Chester Hoard, their youngest daughter, who resides on the next farm to her parents; Mrs. William Rheaume, of Wallaceburg; and Mrs. William Hannah, of Stirling. The sons are Walter, of Hoard's Station; George, of Saskatchewan; Fred, who resides at home, and Frank, of Quebec. They have so many grand, great and great-grand children that they have long since lost count of the number. When strange young people call on them now and introduce themselves as descendants, Mr. and Mrs. Anderson accept the situation as a matter of course.

Care of White Shoes
White buck and canvas shoes may be kept clean very easily, unless very badly soiled, by rubbing them with one of the powder bags sold for the purpose at any shoemaker. When badly soiled first clean them thoroughly with Bon Ami, as you would clean a window, then if they need further whitening rub them with the powder bag. White kid or calf shoes are the most difficult to keep clean. A shoe cream should be used applying it very gently. On this kind of shoe a polish or cleaner should never be rubbed in.

Bath Suit Shrink?
A woollen bathing suit or other woollen garment which has shrunk, may often be improved by being washed in soapuds and rinsed in clean soapuds instead of clear water. Repeated washings in this may be required to restore the garment to its original size and fluffiness, and in drying it should be well pinned out and stretched. It is said that soaking in gasoline will also assist in restoring shrunken articles.

After the bread is baked, rub butter over the top of each loaf and you will have a soft, rich crust.

POISON IV

Year after year as the ivy grows forth to camp or summer stage forest in poison ivy revives. Many are yet to learn to recognize this bushy, slightly woody-stemmed plant, rising from long rootstocks at or just below ground level, and bearing characteristic leaves of three, toothed, pointed leaflets, and frequently the old clusters of round, white fruits beneath them.

Failing to recognize and avoid the plants, many people are susceptible to poisoning, find themselves recently interested in remedial measures. It is to be aware that on contact with the weed, or even with stems, etc., that have been in contact, it should promptly remove all traces of its virulent oil by freely lathering the skin with strong soap, and wash under hot running or constantly changed water. Inflammation results from unsuspected exposure, by effect of the above precautions, may be relieved by applying solutions of boric acid or Epsom salts one or two spoonfuls to a cup of water, and bathing. Various elaborate treatments are offered which are seldom or more helpful, or so readily available.

It is surprising how few people are made to clean up ivy from constantly frequented public and private grounds. Though eradication is to be laborious, there are plenty of people who could safely work at it. In hard or rocky ground, wherever ivy is on the soil does not matter, dry salt or strong brine might be applied before growth becomes too dense, after mowing it with a scythe. Canalic soda and other poisonous chemicals are also recommended. As a rule however direct removal of its rootstocks from the soil, by means of grubbing hoe, potato hook, digging or ploughing, when possible, is preferable. Sometimes when growing in leaf mold or rich soil, astonishingly long strands of rootstocks can be dragged out intact. This is most safely and easily done before spring growth commences. Small patches have thus been cleared up at one operation, which would have required repeated spraying.

HERBERT GRIFF
Botanical Division,
Central Experimental Farm.

Advice To Bathers

Only stay in the water a few minutes the first few times of bathing. Never bathe if tired or very hot; wait until rested and cooler. Do not on account go into the water after a substantial meal.

Do not venture out of depth unless an expert swimmer, and beware of sudden dips in the shore.

The bather should dry and dress quickly if she feels at all cold after coming out of the water and should have a biscuit and a warm drink, if possible (the latter can be taken down to the shore in a thermos flask). If she feels cold and "done up" after a bath it is almost certain to be doing her harm.

Sea water has a bad effect on the hair, making it hard and dry, so a well-fitting, waterproof cap should be worn.

Cooking Fish Satisfactorily

As ordinarily used, the term "fish" includes, besides the fish proper, many other aquatic animals such as lobsters, scallops, turtle, etc., but in the trout season the term "fish"—to the fisherman at least—means trout and nothing else.

If your husband is an enthusiast over his sport, you realize that he rarely praises the way trout is cooked. To him the fish is good because it is freshly caught and he looks upon it as his own particular achievement. Nevertheless, the method of cooking may make or spoil the freshest or rarest fish. Because a woman is a good meat cook it does not follow that she is equally expert at cooking fish. The tendency is to over-cook fish and many recipes give a time that is too long for best results. Cook fish until the meat separates from the bones and the fish looks plump—not shrivelled.

Large trout are delicious baked. Clean, wash and wipe dry, then fill with a bread stuffing. Place the fish on a greased pan, sprinkle it with salt and pepper, brush over with melted butter and dredge with flour. Bake in a hot oven basting often with melted butter or bacon fat.

Another Good One
Small trout are delicious dipped in salted milk (1 tablespoon of salt to 1 cup of milk) then in fine crumbs then placed in a pan with a little melted butter or oil added to each fish. Cook in a very hot oven. When the fish is removed from the oven, each piece will be beautifully browned on all sides, and will be in perfect shape.

Roll cornflake crumbs are good to use instead of dry bread crumbs because they are easy to prepare and are naturally a golden brown. With this way of cooking fish, called the "Spencer Method"—care should be taken to completely cover the fish with the crumbs, use a hot oven and no water to the pan. You will enjoy the result more than by frying the fish, and there will be no odor of cooking in your house.

If your fisherman has been unusually successful in the number of small trout which he has caught, they may be served cold. Prepare a fish stock and in it cook the trout for a short time—until the meat begins to leave the bones. Cook together one cup of vinegar several whole cloves, a small stick of cinnamon, and a cup of bay leaves, strain and season with salt, add one-fourth cup of oil. When the fish are cold, arrange them on a platter and pour the oil and vinegar over them. Garnish with slices of onion and lemon, and sprinkle with paprika.

"Five Sisters" Window

Canadian women share with their sisters throughout the world in the credit of the pleasure of being responsible for the restoration of the fine "Five Sisters" window in the north transept of York Minster. The work has been carried out in memory of the 1,465 women of the Empire who died for their country in the war. In the St. Nicholas Chapel is an oak screen, erected with the surplus of the funds raised for the restoration of the window, bearing the names of the women whose sacrifice the window so fittingly commemorates.

Those who have seen the window—in which 13th century lead from the old Abbey of Rievaulx holds 13th century glass—describe it as indeed "a thing of beauty." In his fine address after the unveiling by the Duchess of York, the other day, the Archbishop of York told most movingly how the inspiration that came to a woman of York with a flash of insight, proved to be a signal which was immediately answered from every part of the Empire, and within nine weeks over 32,000 "subscriptions"—women of every class and nation—within the Empire—aided not only the whole, but more than the whole of the sum needed to restore the window. As he finely said: "The emotion which unites us here is as it were a beating of the Empire's heart."—From "Canada."

It Was Alive!

She was giving an order to the grocer.
"And I require some cheese," she said.
"Yes, Miss," replied the grocer, smiling amiably: "I have some lovely cheese."
"You should not say 'lovely cheese'!" said the customer severely.
"But why not, miss? It is lovely cheese!"
"Because"—she tried to combine maidenly modesty with an air of learning—"because lovely should only be used to qualify something that is alive!"
The grocer's smile broadened as he glanced at the Gorgonzola.
"Well, miss," he said, "I'll stick to 'lovely'!"

MOSQUITOES

(Issued by the Director of Public Health, Dominion Department of Agriculture, Ottawa.)

Certain protective mixtures applied to the skin are of great value in warding off mosquitoes, black-flies and similar pests, especially when the insects are very numerous. A number of formulas for such mixtures are given in a pamphlet on the methods of protection against mosquitoes and black-flies, just issued by the Entomological Branch of the Dominion Department of Agriculture. A mixture recommended by the author is composed of 3 ounces of oil of citronella, 1 of spirits of camphor, 1 of oil of tar, 1/4 an ounce of oil of pennyroyal and from 4 to 6 ounces of castor oil. Another mixture consists of 2 ounces of oil of citronella, 1/4 an ounce of pennyroyal and 2 ounces of castor oil. The castor oil is included to prevent injury to the skin. Tallow may be used instead if it is desired to have mixture in the form of a paste.

When the insects are abundant it is necessary to apply the mixture at least once every half hour, using liberal quantities and rubbing it thoroughly over the hands and face. Care should be taken to have a sufficient quantity of a mixture when on an extended trip in the woods. At least an ounce per person per day is necessary if the flies are anyway abundant. The mixture should be carried in a small aluminum flask or screw top tin, but not in a glass bottle as it is apt to break.

They give and ask no quarter.
For swat them as you may,
Though you slay them by the hundreds
There are thousands back next day.
There is no sovereign balm
Against this foe insidious,
Who lurks in swampy grass by day
And makes the nighttime hideous.
With sundry creams and lotions
Your person you embellish;
Burn smudges and spray potions—
He'll put them up with relish.
Mosquito netting merely adds
A filip to his taste for blood;
I wonder why old Noah
Saved this species from the Flood.

Women Short On Brains

"You women have not yet begun to exist. You have no brain power, no poise, no balance, no morality—nothing. You are sleek jungle cats. You ought to be behind bars."

This criticism of women was delivered by William Frankham, the novelist, at a debate organized by the To-Morrow Club at Central Hall Westminster, London, Eng. His audience was composed chiefly of women.

"We live in a curious, vulgar world," he said, "which is principally ruled by women who have no morality."

"The first principle of morality is to like your work. Will the women who like washing—p kindly stand up? Not one of you! Dusting? Sweeping? Doing household accounts? Ah, two women have stood up! You have all proved that you loathe and detest your job—housekeeping!"

"You are rotten mothers, most of you who are mothers, but, of course, you are charming. So are other things which have no morality; leopards, for instance. You purr when you obtain your own way. You bite when you do not."

"Agnes, in 'David Copperfield,' is the sweetest character ever drawn by any novelist. She never used her nail scissors on her hair. She was sweet, maidenly, retiring, loving to the end. Not even she had any morality. She was, at any rate, neither overexposed nor underdeveloped, like most modern girls."

WHAT DO LOCAL WOMEN THINK

"If the women of the church wish to continue to raise money through the sales of home cooking and bazaar and by other methods that are competing with legitimate merchandisers, let the church take out a license to do business and also let it pay all the other taxes with which the legitimate merchant is faced," was the declaration of Mrs. James Henderson, of Brantford, when she addressed the first session of the reorganized Women's Missionary Society of the Continuing Presbyterian Church.

SLAT'S DIARY

By ROSS FARRAR

Friday—I guess Blister thinks he is the sole show now because he has got a new Silker. Ma said it is all foolishness to get such things and I can't by none, well personally I don't see no use in them neither because as I told Blister I have got enough sense to cum inside the house when it begins to rain.

Sat.—John Ginney is all worked up about starting up a Stock Co. to manufacture sum thing. He says he has invented a fourmorous lip stick so it can be seen in the dark as well as in the light. Ant Emmy says the yung folks is getting mitey help less in this day of ages. If they need enny thing like that.

Sunday—Mrs. Gillem ast Ant Emmy if she cared for Pimento. Ant Emmy sed she never herd him sing but oney once and that was on a fonograf record down to Uncle Hens house.

Monday—Blister pa told us today that next month he and a bunch of other men was a going up in Alaska and hunt bear. Ant Emmy sed she thot they was offely foolish to do that becuz it is so cold up there that they better take a fur coat along or at lease a swetter and sun undeware.

Tuesday—Jake was telling us tonite about a slite of hand man he seen yesterday at the vawdeville show. He cad make 20 \$ Bills disappear as quick as a wink. Pa sed, Shoot that aint nuthin. I can see that without leavng the house. I just set here and watch my wife cirk on my salery. Ma never sed a wurd as it happened she was down town bying a new outfit for are trip we are a going to take in the ford.

Wednesday—Green appt. Nothing to rite about much.

Thursday—Ma's sister witch was visiting here went home today in a hurry on acct. of innocent remark pa made to her. She sed we didnt have no conveniencs here. Pa remarked at we had several trane out of town in both direchshens evry day. She tuk a trane and left.

When furniture becomes dented and not broken the marks may easily be made to disappear. Treat it in this manner: Wet the bruised spot with water. Double a piece of brown paper five or six times and soak it in warm water. Place it upon the bruise and apply a warm (not hot) flat iron till the moisture has evaporated. If the dent has not disappeared repeat the treatment.

Keating's Kills
Kills lice and ticks in children's hair and on children's clothing.

Wilson's Fly Pads
Kill them all, and the germs too. 10c a packet at Druggists, Grocers and General Stores.

Local Items Of Interest

The ladies of St. John's Presbyterian United church, will hold a sale of home baking on Saturday afternoon, Sept. 2, at Grimsby Beach. Further announcement next week.

The Public Library Board will meet on Thursday evening next, August 13, at eight o'clock. As there is important business requiring attention, members are urged to be present.

Mrs. (Dr.) C. W. Elmore, of Beamsville, accompanied by her father the Rev. G. K. B. Adams, of St. Paul street Methodist church, St. Catharines returned last week from a vacation in Muskoka.

Ernest Hopkins and family, of Toronto, visited with Walton and Mrs. Foster, 136 Maple avenue. Mr. Hopkins was taken prisoner at the same time as Mr. Foster by the Germans and put to work in the salt mines.

Mrs. David J. Jackson, 165 Main street west, has arrived home from the west, where she has spent a year visiting members of her family there.

Lincoln Loyalist Chapter, I.O.G.E. will hold a homemade baking sale at the Big Bell, Grimsby Beach, on Saturday, August 15th, commencing at twelve o'clock.

Let us have a list of your visitors each week in order to keep your friends posted and create more and more interest in the everyday life of our fair town. If you are entertaining phone us a list of your guests.

E. B. Murdoch has completed for E. E. McPherson, Beamsville druggist, a splendid enlargement of a photo of James D. Bennett and William Ayers, two of Beamsville's nonagenarians. It is a striking likeness and a splendid piece of work.

Town Council meets tonight.

C. Stubbs, Toronto, spent last Wednesday in town.

Miss McCross, of Winnipeg, Man., is visiting W. L. and Mrs. Haist.

Eugene Stubbs, Toronto, is holidaying with Mr. and Mrs. C. T. Farrell.

Mrs. W. E. Johnson and family spent a week with friends in Chatham.

A Replica of the Toonerville Trolley passed through Town on Saturday afternoon.

Richard Palmer, of Toronto, spent Sunday with the Misses Dolmage, 123 Main street west.

Miss Margaret McArthur, the popular clerk for Hillier & Son, is on a two weeks' vacation.

Mr. and Mrs. Haist, of Hartford, Conn., are spending a few days with W. L. and Mrs. Haist.

Miss M. Morrison, Montreal, is spending her holidays with Mrs. W. L. Stephen and her family.

A. and Mrs. Marra and Mrs. Harry Sutherland of Ypsilanti, Michigan, are visiting friends in town.

Mrs. W. H. Pettit is spending a couple of weeks with her daughter, Mrs. H. K. Whyte, at Dansford, Ont.

Alderman and Mrs. Mosley, and Miss Isabel, spent last week in Kingston, attending the Old Boys' Reunion.

M. E. Wilcox is progressing favorably after his recent accident, being now able to get around with a crutch.

The 22nd annual gathering of the Misenor re-union will be held at Victoria hall, Vineland, on Tuesday Aug. 18.

Misses Mary and Edith Phipps left for Toronto on Monday with Miss Abenette, who had spent the week here.

Joseph Switzer, of St. George, will have charge of the services in The Fifty and Fruitland churches next Sunday.

Several girl friends of Annie and Hattie Merritt, spent a pleasant time at their home, 19 Elizabeth street, on Tuesday evening.

John Brochie, son and daughter, of Lucknow, visited his daughter, Mrs. Wallace Bromley, Main street and Livingston avenue.

W. L. Haist and William F. were returned on Monday night from their annual fishing trip to Wharton. They report some good catches.

Court Bismarck 1417 C.O.F. is holding a garden party tomorrow night, on the lawn of Wilbert Heasler, one mile east of Bismarck.

The regular monthly meeting of the Grimsby Women's Institute will be held on Tuesday, Aug. 18, at 3 p.m., in the Institute room, 25 Main street west.

The Rev. A. S. W. Cree, of London, Ont., will have charge of the services in St. John's Anglican church, Winona, on the last two Sundays of August.

BIG PICNIC TO BE HELD BY W. L.

The Fulton-Grassie branch of the Women's Institute held the July meeting at the home of Mrs. Harley Merritt, with a good attendance. Mrs. Pallas gave a reading, followed by a very interesting and instructive demonstration with Weavere aluminum by Mr. Carruthers of Toronto. Some time was taken by arranging for the annual picnic to be held in the afternoon of Aug. 19, in J. B. Merritt's grove, at which there will be games and refreshments for old and young. Everyone is welcome. Mrs. H. Merritt is the secretary.

OPTOMETRY

It's value to the public.
By VERNON TUCK, R.O.
Grimsby, Ontario

Farsight results because nature in building the eyes made them shorter than they should be. Some people overcome considerable farsight with less annoyance than a smaller degree imposes upon others. Every farsighted person would be better in every way if the error were corrected.

Farsight, like every other error of vision, varies in intensity. Some are deficient to only a slight degree, others to an excessive extent. A suspicion of farsight should prompt a person to consult the Optometrist.

Vernon Tuck

Lincoln-Welland Presbytery Meets

The presbytery of Lincoln-Welland comprising the territory of these counties being called by Rev. Chas. D. Dyer, the convener to meet in St. Catharines in First United Church 97 Church Street, Thursday, Sept. 10, next at 10:30 a.m. The Presbytery is comprised of the ordained ministers of the United Church of Canada within these counties and also laymen appointed by the various churches as charges. The chief business will be that of organization and the appointment of delegates to attend the first Annual Conference of the United Church to be held October next in First Church Hamilton.

PREBYTERIANS OF BEAMSVILLE

A congregational meeting of the Beamsville Presbyterian Church was held in the I.O.O.F. temple, Queen street, on Saturday evening, August 1. There were 87 members present, which was excellent, considering that many had gone away for the holiday.

John Niebla and Abram Dater were elected elders, to form, with William Levan and John Book, a complete board for the church.

A board of managers was also elected as follows:—Jas Stevens, (chairman), E. E. Osborne, (Secretary-treasurer), Chas. Reid, (assistant sec'y.), John Mowat, Geo. Koukile, J. H. Walker, R. P. Greaves, F. B. Johnson and Allan Taylor.

Education services, of which announcement will be given later, will be held in about two weeks.

The treasurer's report for the four months ending July 31st was read. It shows everything to be in a very satisfactory condition and a good balance in the bank.

Conservative Meeting

A Meeting of the Conservatives Grimsby and North Grimsby will be held in Independent Hall, Grimsby, on Friday evening, August 14th, 1925, at 8 o'clock, the purpose of electing delegates to the Conservative convention in St. Catharines on Sunday, August 22, 1925. All friends of good government invited.

HAMILTON FLEMING, President

WHAT WILL HELP BUSINESS HERE?

Last week we took up the merchants' point of view—this week we will discuss the buyers' side of the argument.

We can perhaps do no better than quote as nearly as we can the argument of a lady when engaged in a controversy with a well known local merchant on the subject. The lady's side in brief was "My husband has a fixed salary—we have to save all we can—we drive to Hamilton almost every week anyway and I figure and save enough on my purchases to pay the yearly premium on my husband's insurance. There's no sentiment in business these days and buying is business. Besides I can secure a great deal bigger range of merchandise to choose from in all lines." And the lady is absolutely right.

The merchant countered with—"What do you do when company lands in on you unexpectedly and you need some extra food—run up town and pay cash for it or have it delivered?"

Do the merchants, whom you purchase from in Hamilton, donate the prizes for your Sunday school sports; do they buy tickets for and attend your entertainments, dances etc.

If your house caught fire to-morrow would the Hamilton Fire Department put out the blaze or would it be the G. F. D. which is backed by the local merchants?

How long would you continue to live here if everyone adopted your attitude—which would result in practically all local stores having to close up? In that event how much less would your house be worth than it is now?

And how about your husband's salary—would he still have a job if everyone did what you do? The lady admitted that she hadn't looked at the matter that way and that there might be something in that line of reasoning.

From a Grimsby point of view—with the best interests of Grimsby at stake—the merchant was absolutely right. Grimsby cannot prosper and Grimsby merchants cannot stand the strain unless the buying public think. Lack of thought and lack of loyalty cause people to buy out of Grimsby.

Look for next week's article—"What's Wrong With Grimsby from a Sporting Angle."

WHY I DO NOT BUY IN GRIMSBY!

BECAUSE I cannot afford to. My income will not allow me to.
BECAUSE I paid a merchant in Grimsby \$24.00 for a coat and I saw the same coat, by the same maker, in Hamilton for \$11.00. I paid him \$2.50 for stockings and when examining

them at home found that one was size 8 and the other a 10, and both were moth eaten.

BECAUSE I went to a store to buy a bottle of polish, but on entering the store, a clerk told me they had nothing to fit me, before I told him what I wanted.

BECAUSE I bought a bottle of olives from a grocer, and on asking him to open it for me, he informed me that if he had to open bottles for customers he would never get anything else done.

BECAUSE I went to a boxer and asked for a glass of lemonade, and in answer they told me they never kept lemonade. They also had no enterprise!

BECAUSE I bought chocolate bars at a drug store and they were so full of worms they walked away. I paid \$1.00 for a can of antifoggin and it was so stale it could not be cracked with an axe.

BECAUSE I paid \$1.25 for a shade for an electric light, and bought a duplicate shade in Hamilton for 45c.

I paid \$4.75 for a fixture in Grimsby, and saw the same thing in Hamilton for \$1.75.

BECAUSE I bought a lunch in Grimsby and paid \$1.25 for it, but left it on the table from which the soup, gravy and crumbs from the former customer's lunch had not been cleared away, and because the plate had a decoration of dirty thumb marks round the edge. Also because there were three flies and a cockroach in the pie.

People who COULD spend their money in Grimsby are also entitled to a little loyalty.

Why should the BUYER hand the merchant from 15 to 50 per cent more for an article than he can purchase the same article for elsewhere?

A. REASON.

(The above letter is published, although against our stated policy of giving prominence to anonymous contributions,—the writer of it apparently not having the courage of his conviction to put his name to the epistle or "sign" his signature name to the letter—as we wish to stimulate interest in our series of articles on "What Is Wrong With Grimsby," and to receive arguments pro and con from our readers—but letters on the subject, as on any other subject, must be signed by the writer (not necessarily for publication); and if such come to our desk without the writer's signature, no matter how trenchant the article is, they will be consigned to the w.p.b.)

COULD THIS HAVE BEEN GRIMSBY?

At a recent meeting of a municipal council, the chairman announced that the clerk wanted a supply of ribbons for his typewriter.

Immediately a member rose to protest against such extravagance.

"She may be a very nice girl, but I do not see why she should be provided with finery at the expense of the ratepayers."

FOR FRUIT GROWER AND FARMER

SPRAY NOW FOR CODLING MOTH

WE WANT YOU TO HAVE THIS INFORMATION

Apples

The second brood of codling moth (Side worm) is now emerging and laying eggs. With warm weather these eggs will soon hatch. The second brood will be strung over the next two weeks.

Apple scab is also appearing on the fruit in some orchards where there was early infection on the foliage.

This is a critical time for your crop. Our entomologists have just completed a tour of Ontario orchards. Their advice is that side worms will be very bad and that it is vitally important to take immediate insurance against them. The eggs are now on the apples and hatching.

The apple crop is good, the quality fine to date—but you must dust or spray at once to forestall serious damage.

WHEN AND WHAT TO APPLY—Dust with D-1 or D-2; or spray with Lime Sulphur 1 gallon and Arsenate of Lead 2 pounds to 40 gallons water. Do it at once and thoroughly.

Peaches and Plums

Dust at once with D-3 and again ten days before picking. This will prevent shot hole and brown rot and make your fruit keep and ship better.

This letter is not an advertisement but is part of Niagara Research and Advisory Service. We want you to finish this god crop free of worms and scab. Prices will be good. Wormy and scabby apples are a dead loss. If you have them after this date it will be because you have not followed this advice.

NIAGARA BRAND SPRAY COMPANY LIMITED,
M. C. SMITH, Manager.

A man can be boss in his own home, snaps Monks when all the rest of the family is away.

MEET AT FARM THIS AFTERNOON

The following letter has been sent out to fruit growers of the Niagara district and many are attending the gathering this afternoon.

Dear Sir:

The Executive of this Association have much pleasure in extending you an invitation to attend a summer meeting to be held at Vineland Horticultural Experimental Station under the courtesy of Mr. E. F. Palmer, director, and his staff, on Wednesday afternoon, August 12th at 2 o'clock (Standard Time).

Instructive addresses will be delivered by Prof. V. R. Gardiner, Head of Department of Horticulture, Michigan Agricultural College, East Lansing, by Mr. Palmer and others.

A field survey of the Experimental work carried on at the station will be made under the direction of the members of the staff. Should the weather be unfavorable, Victoria Hall will be used for the meeting. Light refreshments will be served, free of charge, by the station staff.

An invitation is also extended to wives and daughters of all interested fruit growers.

An instructive and interesting meeting is confidently expected.

A. A. CRAIGIE, Pres. sent.
C. E. FISHER, Secretary.

Harvest Excursions

It is harvest time in Canada's great west, and 50,000 men are being asked for to garner in the immense crop in the three prairie provinces. The two transcontinental railways, C. N. R. and C.P.R., are running special trains for harvesters at a low rate—\$15 to Winnipeg and half a cent a mile extra to points beyond. C. P. R. trains leave Toronto, August 18 and 21 and Sept. 4. C. N. R. trains leave Toronto Aug. 18 and 21, special from Hamilton leaving on the 21st. Any railway agent can give full particulars.

Champlain Memorial Marks Advent of White Race

April 24, 1615, was a great day in the lives of the townsfolk of the little seaport of Honfleur in Northern France, for on that day, Sieur Samuel de Champlain, whose earlier voyages and discoveries in the New World had stirred the imagination of the French Court and of the merchants of the Norman and Breton seaports, set sail in the little ship, the St. Etienne, with a party of four Recollet brothers to Christianize the Indians. After a stormy voyage the little ship sailed up the St. Lawrence to that natural haven, now the city of Quebec. Later Champlain went on to Montreal, where he found a large band of Indians assembled to meet him, reminding him of his promise to assist them in their wars. Realizing that this would lead to exploration and eventually to colonization, he set off to Quebec to make arrangements, the Indians sending out their scouts. Before he returned from Quebec, the Indians growing impatient, set out with Father Le Caron and twelve Frenchmen into what is now the Province of Ontario. Champlain, with two Frenchmen and twelve Indians started by the Ottawa to the Mattawa, and joined with the Iroquois in a war expedition against the fierce Iroquois, by means of which Champlain, who was as enthusiastic an explorer as a soldier, discovered Lake Ontario. Returning from the wars, Champlain spent Christmas, 1615, with his friend, Chief Daronat at Cahigue, near where now stands the town of Orillia on Lake Simcoe. The gallant gentleman returned to Montreal in June, 1616, where he found his friends, the Recollets, had given up hope of seeing him again. Champlain's work as an explorer was now done, but his voyages into Ontario opened up the path to the west to the missionary and the trader.

It is a far cry from the little ship, St. Etienne, which set sail that day so long ago from France, up the St. Lawrence to Quebec, to the giant Canadian Pacific steamship, "Montreal," which one hundred and ten years later sailed from Cherbourg by the same route to the Canadian Gibraltar. On board the "Montreal" was Vernon March, the famous English sculptor who designed and executed the monument recently erected at Orillia, to the memory of the gallant soldier, missionary and explorer, Samuel de Champlain, near the site of Cahigue, from which little settlement, Champlain started out with his Indian friends on the disastrous expedition against the Iroquois and where he returned with his discouraged allies.

The bronzes for the monument are colossal in size, the figure of Champlain himself being twelve feet high, of astounding action and vigor. In addition to this main figure are two groups, one, "Christianity," representing a Recollet father holding aloft the Crucifix to the savages (No. 1). The other is "Commerce" and shows the voyageur with a similar pair of Indians (No. 3). The total weight of the bronzes is more than nine tons. It is mounted on a pedestal of Benedict stone, 30 feet square and 18 feet high, giving the monument a total height of 30 feet (No. 2).

Mr. Vernon March (No. 4), the sculptor, is an interesting figure. He is one of a family of seven brothers and one sister, all of whom are artists and sculptors. At their studio and workshop, in Farnborough, Kent, which formerly was an old post house, they do their own casting as well as designing. Mr. Vernon March's work, particularly that for war memorials, has won the highest recognition in all parts of the Empire and the memorial at Orillia in both conception and execution is one of the finest examples of his art. Mr. Sydney March, a younger brother, crossed on the "Montreal," and will assist his brother in the erection of the bronzes.

The late Lord Strathcona was one of the original promoters of the monument and made the initial contribution to the fund, while the Canadian Pacific Railway also contributed to the erection of the monument.

In Estimating Your Furnace
Requirements

The first step in that direction is the selection of the correct kind of furnace for your type of residence; the second step is to have it properly

through careful study and long experience, is at your disposal. Now is the time to solve your heating problem—not next Fall.

Letters To The Editor

HOCKEY

JUNIORS ORGANIZE

The local Junior O.H.A. team held an organization meeting last Wednesday evening.

Of last year's team the following signified their intention of turning out: "How" Marsh, "Happy" Hillier, "Mac" McCartney, "Red" Farrell, "Colonel" Farrell, "Ping" Hill, "Tommy" Walker, "Chuck" Robertson, "Les" Neal will act as business manager of the team, "Bobby" Farrell will be trainer, "Jim" Fisher will be official goal judge, while "Chuck" Walker and "Honey" Shelton will handle the timepieces.

Arrangements will be made to procure a good coach for the lads and exhibition games will be staged against the strongest junior aggregation in the province.

The kids feel that with last year's experience they have a real chance for junior honors and hope to receive a whole lot more support than they did last season.

"Les" Farrell will, as before, act as mentor for the boys.

BOWLING

At the bowling tournament at Grimsby Beach 1 at Wednesday, Aug. 5 W. A. Coon's rink of the Beach club won first, while the Grimsby rink skipped by the Rev. J. Allan Billard, and composed of Carpenter, lead; Phelps and Forman won second prize. Another local rink skipped by G. B. McConachie surprised the talent by beating the two rinks that had been called to fight it out for first honors, this eliminating both of them.

FORMING CLUB

A Bowling club is being formed at Beamsville.

BASEBALL

BRIDGEBURG HERE ON SATURDAY

Saturday afternoon next at 2.30 "Pud" Reid and his Gee Bees will entertain the Bridgeburg outfit at the school grounds.

The Gee Bees are playing high class ball now and a real snappy game will be dished up.

With several postponed games still to play and the Gee Bees playing the brand they are, anything is liable to happen; and the boys still have a chance to land in the play-off.

A large crowd should be on hand to see the Gee Bees show their stuff.

LACROSSE

ST. CATHARINES TRIMS TIGERS

Russell Kelley's Tiger Lacrosse team received a beating in more ways than one at St. Kitts on Saturday.

Burnside furnished the stellar play of the afternoon by scoring one on a rebound of his own shot, the first time old time lacrosse fans had ever seen it done.

With 1/2 minute to go St. Kitts netted a counter, breaking a four all tie.

The game was featured by several free for alls in which the spectators took part.

NIAGARA PENINSULA TENNIS LEAGUE

Aug. 15.—St. John's, Winona, at St. John's, Grimsby; Lakeland at Methodist, Grimsby.

Aug. 22.—St. John's, Grimsby, at Stoney Creek; Community, Winona, at Methodist, Grimsby.

FOOTBALL SCHEDULE OF HOME GAMES.

August 16—vs Corinthians
August 23—vs Roosters

LAPSE OF MEMORY OF CALEDONIAN

A well dressed young man was found by Police Chief Wentworth, on Sunday afternoon wandering about the streets in a dazed condition. With Provincial Constable George Mackay he was questioned and gave his name as Robert Gilpin, of Caledonia. His father, a business man, of that town, was notified and he came to Grimsby accompanied by the family physician Dr. May and took the young man, who is twenty-three years of age to his home.

It is about a month since it was first noticed that he was suffering from lapse of memory. He had left home on Saturday morning and is reported that he was at Grimsby Beach on Saturday night.

STONE CREEK TO HAVE FIELD DAY

The field day committee has about completed arrangements for the big field day at Stoney Creek next Saturday, and programs, giving a detailed list of events, are out. An interesting feature is the tug-of-war between Saltfleet and Linbrook, which will take place in the afternoon. The baby show, too, is attracting considerable attention, and a large number of bouncing tots will be on hand. Judge Gauld, Magistrate Vance and Chief Clark are providing the prizes for this event. Sharp at 9 o'clock next Saturday morning the big day will open, and there will be something doing every minute from then until 10.30 o'clock at night, when the garden party will draw to an end.

GRIMSBY GIRLS WRITE ESSAYS

Ruby Patterson and Sadie Loree Win Prizes in Department of Temperance Contest

This year about 1,400 children in Lincoln County took part in the Essay and Poster Contest conducted by the Department of Scientific Temperance Instruction.

Four local contests have been held viz, at St. Catharines, Niagara-on-the-Lake, Campden and Jordan Station. At each of these contests prizes were given the winning contestants by the local W. C. T. U.

Essays from Merritt, Wellandport, Grimsby, Smithville and Grimsby Park were entered directly into County Contest, those places not having local contests.

The subjects for essays in Public and Separate School Contests were:—

(a) Why the Automobile Driver Should not use Alcoholic Liquors.
(b) Three Reasons for letting Cigarettes alone.

The winners of County prizes are:

Fourth Class Essay—1st Prize (\$4) Jessie Baker, Victoria School, St. Catharines, 2nd prize (\$2) Doreen Harris, Merritt; Ruby Patterson, of Grimsby.

Third Class Essay—1st Prize (\$3), Louise Prior, St. Catharines, 2nd prize (\$2), Florence Swann, St. Catharines. Special Prize, Sadie Loree, Grimsby Park.

The posters illustrated slogan "It all goes up in smoke" or any fact about alcohol selected by contestant. The winners were:

Fourth Class Poster—1st Prize (\$3), Geo. Holdsworth, St. Catharines, 2nd prize (\$2) Teddy Steele, St. Catharines.

Third Class Poster—1st Prize (\$2), Wilford VanEve, Jordan Station, 2nd prize (\$1) Laura Henseberger, Jordan Station.

The subjects for High School essays were:

(a) As a citizen what attitude should I take regarding the drinking of alcoholic liquors?
(b) The reasons I would give my younger brother or sister for letting cigarettes alone.

First Prize (\$4), Miss Dorothea Moore, Jordan, second prize (\$2) Miss Elsie Cuppage, Niagara-on-the-Lake.

The judges were Miss Annie Fry, Mr. A. L. Fry, B. A., and Rev. O. E. Tallman who were thanked for their valuable services in grading the essays.

WILL ATTEND AT GRIMSBY SCHOOL

Saltfleet Council Has Arranged For Students of That Township To Come To Local H. S.

Stoney Creek Aug. 11.—The members of the county council's attitude in the matter of providing high school accommodation this year, the residents of Saltfleet will be provided for. Acting Reeve Carscadden states that the township council had arranged for Saltfleet children to attend the Grimsby High school after September 1, and that the Grimsby board of education had so notified the county council. This means that pupils from Saltfleet will have their entire fees paid at Grimsby instead of Hamilton, which which the county council has failed to reach an agreement. It will not be compulsory, however, for the children of this township to attend Grimsby, as the fees will be paid by their parents.

I am twenty-five cents. I am now on speaking terms with the butcher. I am too small to buy a quart of ice cream. I am not large enough to purchase a box of candy. I am too small to buy a ticket to a movie. I am hardly fit for a tip, but—believe me, when I go to church on Sunday I am considered some money.—

Editor, The Independent—Please allow me space in your paper for the following:

TAX COLLECTIONS

Does our worthy and honorable council, aware of the hardship and stress they have brought on the taxpayers, who are striving hard to a home, and I believe always their taxes when due, until sick and unemployment faced them. A many taxpayers had to apply for relief last winter through no fault of their own, and our council knows well the names, yet to satisfy ends they put us to more hard by having the bailiff to collect each month, when we got steady for the summer, but would see homes broken up for the 1924 tax. Everyone is willing to pay when he means.

Would our council like to see the poor pittance (called wages) which is a disgrace to the employ of labor and keep a wife and family of 3 to 5 children out of same? They figure they might get into same predicament themselves? Cause ill luck follows a worker with sickness and unemployment, put us to more distress paying bailiff's fee.

In conclusion I would ask if the gentlemen that pressed to have taxes collected by bailiff did same advertise their business ability or have their names blazoned over town for other reasons.

Might I ask if all of our council eligible to sit, and if they expect to be nominated for next year? I do it!

TAX PAYER.

Grimsby, August 10, 1925.

FAMILY REUNION OF HENDERSHOTE

The ancestry of three families, particular, by name, Johnsons, Moors and Hendershotes, have in their spring a multitude of Hendershotes scattered very broadly over the North American continent; Senator Moore of Washington, D. C., being one, who be present on this occasion.

The old homes were located mostly in the Niagara District between Hamilton and Buffalo where a great many still live and have splendid homes.

It is the intention to hold a gathering at the Niagara Falls, Victoria Park Pavilion on Labor Day. It is expected that this picnic and reunion will bring together upwards of 500 by many names and yet all direct descendants of the Hendershot family.

The event will be one of note as it now forty-five years since the family last met, many of whom attended the gathering are expected to attend this one, although so long a time intervening.

TAX RATE FOR SALT FLEET TWP

Stoney Creek, Aug. 7.—Increase assessment occasioned by Judge Evans' award resulted in a jump of three mills in the county rate, which now stands at 17.5 mills, instead of 14.5, as paid last year in the township of Saltfleet. Otherwise the tax accounts will remain about the same as 1924, except for the various school sections which has not as yet been fixed. The township by-law providing for the collection of this year's taxes fixed the various other rates as follows: County purposes, 17.5; township purposes, 6.2; debentures, .5; and municipal grant to schools, 2.8.

BAND MASTER BADLY INJURED

Edward D'Anna director of the Shredded Wheat Band of Niagara Falls, was severely injured early on Friday morning when the auto in which he was returning from the Kitchener Old Boys' Reunion skidded into the H. C. & B. tracks on the curve near George Udels. There was a very tense fog and the curve was not noticed in time.

D'Anna was thrown with sufficient force to tear the front door of the car from its hinges and landed several feet away. Two bad scalp wounds and injuries to his hip and knee were attended to by Dr. McLaughlin at the Village Inn, but he insisted on going to his home later in the day.

Out Goes All Rheumatic Poison

Rheuma Acts on Kidneys, Liver and Bladder, the Very First Day.

It's a remedy that is astonishing the whole country, and it's just as good for gout, sciatica, lumbago and kidney misery as for rheumatism. It drives the poisonous waste from the joints and muscles—that's the secret of Rheuma's success. But we don't ask you to take our word for it; go to Farrell's Drug Stores or any good druggist and get a bottle of Rheuma today; if it doesn't do as we promise get your money back. It will be there waiting for you tomorrow.

It's a remedy that is astonishing the whole country, and it's just as good for gout, sciatica, lumbago and kidney misery as for rheumatism.

AN OLD STORY, BUT EVER NEW

It is scarcely necessary any longer to spend time proving that advertising by creating demand, speeding up production, increasing production, cuts down unit costs to the consumer. But I don't want my soap tailor-made, as to make the story worth quoting. Life had such an article the other day here it is:—

"I don't want any soap factory making one can of soap for me. I don't want my soap tailor-made, or at all."

"When it comes to soap and soap, don't want to be exclusive. I want to be one of 1,000,000 customers."

"So, if you are a manufacturer, don't come around to me with a tape measure and say that you would like to be sure me for soap or soap. First get 2,000,000 other guys like me, and then I'll listen."

"My reason for being so inexclusive is this: I figure that if you get 1,000,000 other customers, your soap or soap is bound to be good. You can afford to take pains with it. You can hire a lot of experts to experiment their heads off. You can put in the best soap or soap machinery in the world. Your soap will be some soap. Your soap will wash dirt."

"If I place my order with you personally for one can of soap or one cake of soap you might fuss around with it and it might be good, or it might not. And if I didn't like it and kicked, you should be sorry."

"But with 1,000,000 other birds to please, you'll please or perish. I should worry."

"The only way I know for you to get 1,000,000 other buyers is for you to advertise."

Landlady—Help! What'll I do? A rat's run into the pantry.
Long-suffering Boarder—Oh, just shut the door and let it starve.

Daily Fashion Hint

FOR DINING OR DANCING

The charm of a beautifully designed frock is enhanced by the materials used in its development. Here white Georgette crepe is printed with large flowers in black and pink. The inset godets are of plain white Georgette, while the long, graceful scarf corresponds with the border of the frock. If 54-inch material is used for the model, only 1 1/2 yard will be required for the dress.

Pictorial Review Printed Pattern No. 2696. Sizes, 16 to 20 years and 34 to 42 inches bust. Price, 45 cents.

Daily Fashion Hint

For business, travel, or general wear, this suit in navy-blue twill is exceedingly smart. The jacket has a velvet collar, and the dress is in suspended effect, to be worn with a jabot blouse of crepe in self-color. There is an inverted plait at one side of the skirt. Medium size requires 3 1/2 yards 54-inch twill and 1 1/2 yard velvet.

Pictorial Review Printed Pattern No. 2707. Sizes, 16 to 20 years and 34 to 42 inches bust. Price, 45 cents.
